

Okay, here are 50 distinct customer feedback snippets, following the format you requested:

Feedback #1: I tried uploading a large PDF, and it just got stuck at the very end. It says 99% for ages!

Feedback #2: The search is useless when I look for things like "CEO". It just finds documents with the letters C, E, and O separately.

Feedback #3: Why are all the pictures in this document preview broken? It makes it impossible to understand.

Feedback #4: When I click on page 3 of the search results, it keeps taking me back to page 1. Very frustrating!

Feedback #5: On my phone, some of the buttons are overlapping each other. I can't even click the right one.

Feedback #6: I tried to filter documents from last month, but the list doesn't seem right. There are definitely documents missing.

Feedback #7: I'm not getting any email notifications when someone shares a document with me. I missed an important update!

Feedback #8: The file size shown for my uploads is all wrong. A 10MB file is showing as 10KB.

Feedback #9: I accidentally typed a really long search term, and the whole app seemed to freeze for a bit.

Feedback #10: I can't download a simple text file. The download button is just greyed out.

Feedback #11: The little icons at the top are all wonky and not lined up properly.

Feedback #12: The message after I updated my profile had a typo. It said 'Sucessfully' instead of 'Successfully'.

Feedback #13: I tried to share a document with someone who doesn't have an account, and it just failed silently. No error message at all.

Feedback #14: The highlights I made on a document on my tablet didn't save when I closed and reopened it.

Feedback #15: It takes forever to load my documents list. I have hundreds of files, and it just crawls.

Feedback #16: The text on some of the buttons is really hard to read because of the background color. It's not very accessible.

Feedback #17: Sometimes, random scrollbars appear on the side of the page even when there's nothing to scroll.

Feedback #18: I tried to delete a document, and it just disappeared without even asking if I was sure.

Feedback #19: When I hover over some of the icons, the little help text doesn't show up.

Feedback #20: The loading bar finished really quickly, but the task was still running in the background. It was confusing.

Feedback #21: When I first log in and don't have any documents, the page is just blank. It should tell me what to do.

Feedback #22: I can't use my keyboard to navigate through some parts of the app. I have to use the mouse.

Feedback #23: Sharing with my colleague Sarah doesn't work for some reason. It keeps failing.

Feedback #24: The drawing tool in the annotation doesn't seem to save properly. My scribbles disappear.

Feedback #25: I can't find older versions of a document in the history. I know I made changes before these ones.

Feedback #26: I tried to delete a document, and nothing happened. It's still there.

Feedback #27: I can't update my email address in my profile settings. It just gives me an error.

Feedback #28: The password reset link I received in my email expired before I even had a chance to click it.

Feedback #29: I can't import files from my Dropbox sometimes. It just says 'Error'.

Feedback #30: When two of us are editing the same document, our changes don't always show up for each other right away.

Feedback #31: The navigation menu on my phone is all jumbled up.

Feedback #32: There's a spelling mistake on the login page.

Feedback #33: I can't seem to share multiple documents at once.

Feedback #34: The undo button after I make an annotation doesn't work.

Feedback #35: The search results don't seem to be ordered by relevance.

Feedback #36: My battery drains really fast when I have this app open in the background.

Feedback #37: Sometimes when I tap on things, it doesn't respond right away.

Feedback #38: I can't access my downloaded documents when I'm offline.

Feedback #39: The app asked for my location even though I wasn't doing anything that needed it.

Feedback #40: When I turn my phone sideways, the screen layout gets all messed up.

Feedback #41: The keyboard covers the text box when I'm trying to type a comment.

Feedback #42: I couldn't even install the app on my old phone.

Feedback #43: My computer fan goes crazy when I'm uploading a lot of documents.

Feedback #44: I keep getting disconnected from the server randomly.

Feedback #45: I set up a reminder, but it never went off.

Feedback #46: The app is really slow sometimes, especially when I'm switching between documents.

Feedback #47: My app crashed for no reason while I was in the middle of editing.

Feedback #48: I got blocked from searching for a while after doing just a few searches.

Feedback #49: The error messages I get aren't very helpful. They don't tell me what to do.

Feedback #50: I'm worried about the security of my documents because the app feels a bit buggy.
